 +92 317 694 7473

 Lahore, Pakistan

Results-driven Computer & Network Engineer with 4+ years of hands-on experience designing, installing, configuring, and supporting enterprise IT infrastructure, LAN/WAN networks, and hardware systems. Proficient in **Microsoft Active Directory (AD DS)** administration, **VPN configuration (Site-to-Site & Remote Access IPsec/OpenVPN)**, **firewall management**, **VLAN routing**, **network printer setup**, and multi-site technical support. Proven background maintaining 99.9% network reliability across head office environments and remote project sites, with strong troubleshooting capabilities across Windows Server, Linux, and hardware peripherals.

### CORE COMPETENCIES & TECHNICAL SKILLS

 **NETWORK INFRASTRUCTURE & ROUTING**

LAN / WAN Configuration

VLAN Segmentation

DHCP / DNS / TCP-IP

Managed Switches & Routers

Wi-Fi & Mesh APs

 **VPNS, FIREWALLS & SECURITY**

Site-to-Site VPNs

IPsec / OpenVPN

Fortinet / Palo Alto / Cisco

Firewall ACLs & NAT

Endpoint Protection

### ACTIVE DIRECTORY & SYSTEMS

Microsoft Active Directory

Group Policy (GPO)

User & Access Management

Windows Server / Client

 Linux (Ubuntu, CentOS)

### HARDWARE & DESKTOP SUPPORT

Workstation / PC Diagnostics

Network Printers & Scanners

OS Installation & Imaging

Peripheral Equipment

Hardware Upgrades

### IT OPERATIONS & REMOTE TOOLS

Helpdesk & User Support

AnyDesk / TeamViewer / RDP

Data Backup & Recovery

Technical Documentation

Multi-Site Site Support

### MONITORING & TELEMETRY

 Prometheus

 Grafana

SNMP Network Monitoring

Uptime SLA (99.9%)

## PROFESSIONAL EXPERIENCE

### Infrastructure & Network Support Engineer • [Technonies](#)

Mar 2022 – Oct 2024 • Remote / Multi-Site Operations

- Designed, installed, and administered enterprise network topologies, VLAN segmentation, and firewall rules for 50+ internal users across office and remote infrastructure.
- Configured and maintained secure **Site-to-Site IPsec VPN tunnels** and remote access endpoints, ensuring reliable connectivity between head office systems and distributed servers.
- Administered centralized directory services, user identity management, and credential policies across enterprise systems.
- Managed network printers, Asterisk VoIP telephony systems, email routing, and hardware diagnostics, resolving 95%+ of IT support tickets within initial response SLAs.
- Automated server configuration baselines, OS patching, and network performance monitoring with Prometheus and Grafana.

## IT Infrastructure & VMware Systems Engineer • THINK Surgical

Feb 2023 – Dec 2023 • Remote / Technical Operations

- Administered physical server hardware, network switches, and 20+ virtual machines on VMware ESXi hypervisors.
- Provided comprehensive hardware, operating system, and software technical support for engineering teams; automated workstation environment provisioning.
- Implemented endpoint security monitoring and access controls adhering to strict technical and regulatory documentation standards.

## Network & Cloud DevOps Engineer • IBHC.ai (Inception AI)

Sep 2025 – Present • Remote / Hybrid

- Configure and maintain secure network infrastructure, virtual networks, subnets, and Private Endpoints across multi-tenant enterprise environments.
- Enforce network access policies, firewall rules, and role-based access control (RBAC) across Windows and Linux systems.
- Implemented real-time network and infrastructure monitoring dashboards, reducing technical issue resolution time (MTTR) by 60%.

## Computer Systems & Network Support Engineer • Code Informatics

Feb 2021 – May 2022 • Remote / Onsite Support

- Provided primary computer hardware, OS, and network connectivity support for 30+ workstations, network printers, and peripheral devices.
- Configured internal office routers, switches, DHCP pools, Wi-Fi access points, and VPN client connections for remote staff.
- Administered local user accounts, file sharing permissions, and scheduled data backups.

## EDUCATION & ACADEMIC RESEARCH

### BS in Software Engineering

2017 – 2021

COMSATS Institute of Information Technology, Islamabad

- **Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
