 Lahore,
Pakistan

Senior DevSecOps & CI/CD Engineer with 5+ years of experience designing, automating, securing, and operating enterprise continuous delivery pipelines across Microsoft Azure, AWS, and hybrid infrastructures. Proven track record leading CI/CD and cloud security architecture for high-profile UAE Government initiatives (DGE-Mawaheb) and Abu Dhabi enterprise platforms (IBHC.ai, Takafo / Mubadala). Specialized in Azure DevOps, Jenkins, GitOps (ArgoCD), Ansible automation, Kubernetes orchestration, DevSecOps security integration (SAST/DAST, SCA, SOC 2 / ISO compliance), and full-stack SRE observability (Prometheus, Grafana, ELK, Azure Monitor).

CORE COMPETENCIES & TECHNICAL SKILLS

CI/CD & PIPELINE AUTOMATION

Azure DevOps Pipelines

Jenkins

GitHub Actions

ArgoCD GitOps

Git Version Control

DEVSECOPS & SECURITY

Shift-Left Security

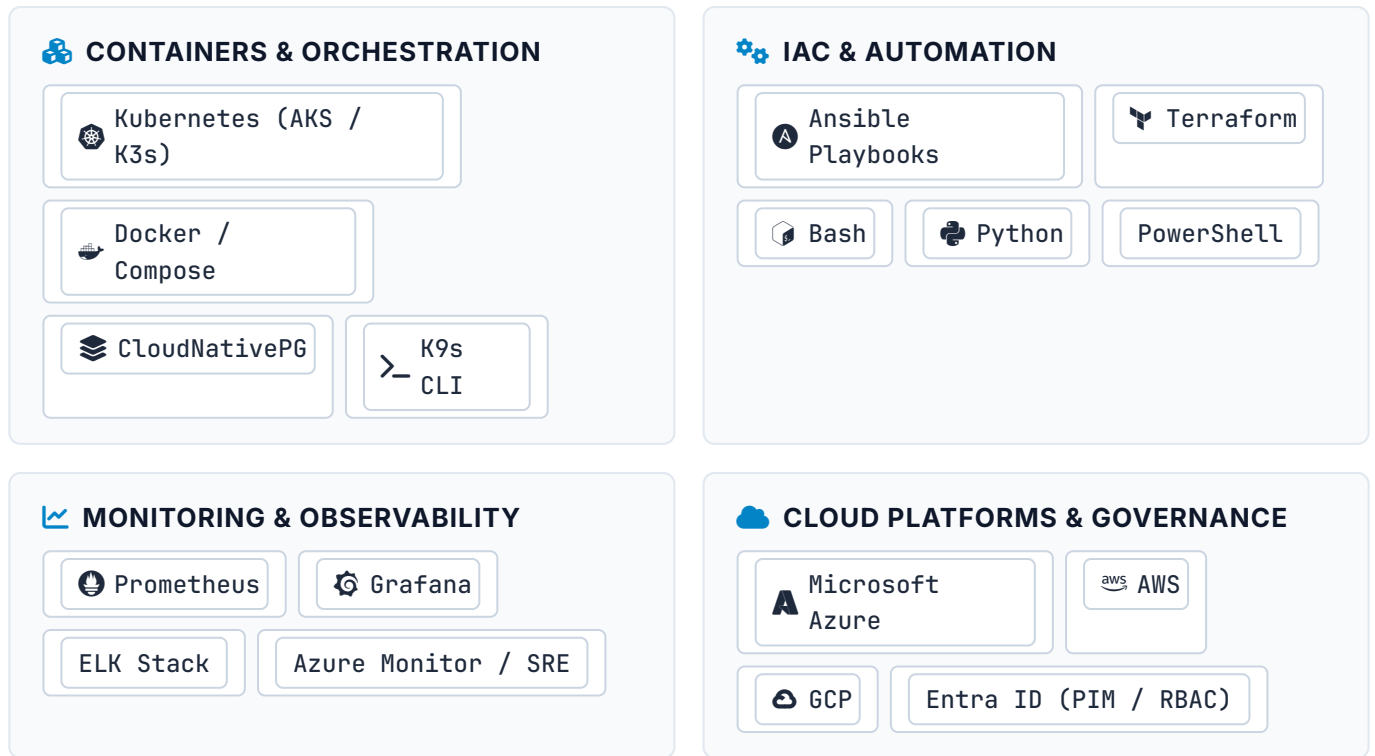

SAST / DAST / SCA

Fortify / Black Duck

SonarQube

Trivy / Snyk

SOC 2 (AzureProof)

PROFESSIONAL EXPERIENCE

Senior DevOps & Azure Cloud Engineer • [IBHC.ai \(Inception AI\)](#)

Sep 2025 – Present • Remote / Hybrid

- Lead cloud architecture, CI/CD delivery, and DevSecOps engineering for **DGE-Mawaheb (UAE Government)**, **Muqabla**, **Takafo**, and **RestHero** across Azure and AWS.
- Architected enterprise multi-stage **Azure DevOps** and **GitHub Actions** CI/CD pipelines with automated Docker builds, approval gates, health checks, and rollback controls, shipping releases in under 10 minutes.
- Designed DGE-Mawaheb's secure High-Level Design (HLD) and network topology with isolated Dev, UAT, Production, and DR environments using App Services, GPU VMs, PostgreSQL, Redis, Key Vault, ACR, VNets, and Private Endpoints.
- Embedded automated security and compliance validation into delivery pipelines using **AzureProof** (automated live configuration scanning against controls), cutting SOC 2 audit preparation from days to hours.
- Implemented centralized observability through Azure Monitor, Log Analytics, and Application Insights, **reducing MTTR by 60%**.
- Automated AWS delivery for RestHero using Amplify, Elastic Beanstalk, CodePipeline, and AWS WAF, **reducing manual effort by 70%**; maintained **99.9% uptime SLA** for Takafo sovereign AI platform.

Senior DevOps & Azure Engineer • [Aslase](#)

Jul 2025 – Present • Hybrid

- Manage secure Azure infrastructure, CI/CD pipelines, and production operations for 8+ commercial platforms including **ASMS (Skyworth USA)**, **Black Door Limo**, and **Humentra.ai**.
- Build automated Azure DevOps and GitHub Actions CI/CD workflows for Docker Compose workloads on Azure VMs with approval gates, vulnerability scans, and automated alert notifications.
- Administered Nginx reverse proxies, SSL/TLS certificates, DNS, application configurations, centralized logging, and incident resolution, **reducing release cycles by 40%**.
- Completed zero-downtime Azure migrations from legacy hosting environments within two weeks.

On-Premise & Cloud Infrastructure Engineer • [Technonies](#)

Mar 2022 – Oct 2024 • Remote

- Automated Kubernetes cluster deployments on Hetzner Cloud using ArgoCD GitOps, **dropping cluster provisioning time from 4 hours to under 20 minutes**.
- Engineered zero-downtime MariaDB Galera and HA PostgreSQL (Patroni + pgpool) database clusters, maintaining **99.95% production database availability**.
- Authored modular **Ansible playbooks** automating full Kubernetes installation, node hardening, and Prometheus/Grafana monitoring stack deployments across 15+ nodes.
- Deployed and managed 50+ agent Vicidial call center cluster (Asterisk VOIP), FreeIPA identity management, Frappe ERPNext, and Postfix/Dovecot mail infrastructure on bare metal.

DevOps & GCP Engineer • [Vizzn Inc](#)

Aug 2023 – Feb 2025 • Remote (Canada)

- Led migration of critical 'Borger' application from legacy server to modern Ubuntu platform, **improving system performance by 50%** and eliminating recurring downtime.
- Administered GCP monitoring and logging across 5+ microservices; executed Dgraph database major version upgrade with zero data loss within a 30-minute maintenance window.
- Optimized 8+ GitHub Actions CI/CD workflows, **reducing average pipeline duration from 18 to 7 minutes**; executed DRATA automated compliance test suites for SOC 2 readiness.

Infrastructure & VMware DevOps Engineer • THINK Surgical

Feb 2023 – Dec 2023 • Remote (USA)

- Managed VMware ESXi hypervisor environment on physical servers; handled VM lifecycle and resource allocation across 20+ virtual machines for medical robotics R&D.
- Deployed multi-user JupyterHub platform; automated host provisioning via Ansible, **cutting server setup times from 3 hours to 15 minutes.**
- Integrated Arctic Wolf Agent for 24/7 threat monitoring; executed full TeamCity server migration with 100% pipeline and build configuration preservation.
- Authored Software Validation Protocols (SVP) and Verification Reports (SVR) adhering to strict FDA 21 CFR Part 11 compliance requirements.

DevOps & Azure Engineer • Code Informatics

Feb 2021 – May 2022 • Remote

- Built company's entire CI/CD culture from scratch; designed Jenkins pipelines, Dockerized 5+ applications, and deployed ELK Stack for centralized log monitoring.
- Led end-to-end Azure cloud setup for new product launch, **cutting deployment time from 2 days to under 1 hour.**

EDUCATION & ACADEMIC RESEARCH

BS in Software Engineering

2017 – 2021

COMSATS Institute of Information Technology, Islamabad

- **Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
