

ANAS KHAN

Senior Systems Engineer • Enterprise Identity & Hybrid Directory Specialist

 anas.devops@hotmail.com

 +92 317 694 7473

 Lahore, Pakistan (Open to Relocation to Doha, Qatar)

Senior Systems & Enterprise Identity Engineer with 5+ years of hands-on experience designing, securing, and administering enterprise directory services, hybrid identity ecosystems, and multi-cloud infrastructure. Deep technical expertise across **Microsoft 365**, **Microsoft Entra ID (Azure AD)**, on-premises **Active Directory (AD DS)**, **AD CS (PKI & Certificate Services)**, **AD FS (Federation)**, and directory synchronization. Proven background enforcing zero-trust access controls, **Conditional Access policies**, **Privileged Identity Management (PIM)**, and enterprise **SSO (SAML, OAuth2, OIDC, LDAP)** across mission-critical government and enterprise environments.

CORE COMPETENCIES & TECHNICAL SKILLS

 **MICROSOFT ENTRA ID & IDENTITY GOVERNANCE**

 Microsoft Entra ID (Azure AD)

Conditional Access

PIM (Privileged Access)

MFA / Identity Protection

Granular RBAC

 **ACTIVE DIRECTORY, PKI & FEDERATION**

Active Directory (AD DS)

AD CS (PKI Certificates)

AD FS (Federation)

Entra Connect Sync

FreeIPA (LDAP/Kerberos)

 **ENTERPRISE SSO & PROTOCOLS**

SAML 2.0 Integration

OAuth2 / OpenID Connect

LDAP / LDAPS

Kerberos Authentication

Enterprise App SSO

 **M365 & ENTERPRISE COLLABORATION**

Microsoft 365 Admin

Microsoft Teams

SharePoint Online

OneDrive Governance

Cross-Tenant / Guest Access

 **INFRASTRUCTURE, DNS & CERTIFICATES**

Enterprise DNS

SSL/TLS Lifecycle

Azure Key Vault

Nginx Reverse Proxy

GPO Hardening

 **CLOUD, VIRTUALIZATION & SYSTEMS**

 Microsoft Azure

 VMware ESXi

 Proxmox VE

 Linux & Windows Server

PROFESSIONAL EXPERIENCE

Senior DevOps & Azure Cloud Engineer • [IBHC.ai \(Inception AI\)](#)

Sep 2025 - Present • Abu Dhabi, UAE (Remote / Hybrid)

- Lead enterprise identity architecture, access governance, and infrastructure security for **DGE-Mawaheb (UAE Government)**, **Takafo**, **Muqabla**, and **RestHero** platforms.
- Architect and manage multi-subscription **Microsoft Entra ID** tenant governance, implementing zero-trust **Conditional Access policies**, **Privileged Identity Management (PIM)**, and granular RBAC across development, staging, and production environments.
- Enforce enterprise SSO and federated authentication integrating SAML 2.0 and OAuth2/OIDC for internal and external government stakeholders.
- Automated security compliance verification using **AzureProof**, scanning live configurations against control definitions and cutting SOC 2 audit preparation from days to hours.
- Manage secure hybrid network infrastructure with VNets, Private Endpoints, Azure Key Vault, and centralized monitoring with Azure Monitor and Log Analytics, **reducing MTTR by 60%**.

Senior DevOps & Azure Engineer • [Aslase](#)

Jul 2025 - Present • Hybrid

- Administer enterprise Azure infrastructure, Entra ID access control, and secure identity federation for 8+ commercial client platforms including **ASMS (Skyworth USA)**, **Black Door Limo**, and **Humentra.ai**.
- Manage enterprise SSL/TLS certificate lifecycles, automated DNS record propagation, reverse proxies, and secure external/guest access policies.
- Enforce role-based access control (RBAC), service principals, and API authentication integrations across multi-tenant environments, **accelerating deployment velocity by 40%**.
- Completed zero-downtime migrations from legacy server environments to modern cloud infrastructure within two weeks.

On-Premise & Cloud Infrastructure Engineer • [Technonies](#)

Mar 2022 - Oct 2024 • Remote

- Enterprise Directory & Identity Administration:** Deployed and administered enterprise directory services utilizing **FreeIPA (centralized LDAP, Kerberos authentication, and PKI certificate authority)** managing 50+ enterprise users and service accounts.
- PKI & Certificate Management:** Managed internal SSL/TLS certificates, CA root trust stores, and DNS zones for internal and external network routing.
- Enterprise Applications & Collaboration:** Deployed and managed enterprise ERP systems (Frappe ERPNext), Vicidial Asterisk VOIP clusters, and secure Dovecot/Postfix mail infrastructure.
- Automated system hardening and infrastructure deployment across 15+ nodes using modular Ansible playbooks, ensuring consistent baseline security.

DevOps & GCP Engineer • [Vizzn Inc](#)

Aug 2023 - Feb 2025 • Remote (Canada)

- Managed enterprise access control, service accounts, and IAM roles across multi-service GCP architectures and Kubernetes clusters.
- Executed automated compliance testing and access reviews for **DRATA SOC 2** readiness, verifying least-privilege principles and credential rotation.
- Optimized 8+ CI/CD automation pipelines, reducing execution durations from 18 to 7 minutes.

Infrastructure & VMware DevOps Engineer • [THINK Surgical](#)

Feb 2023 - Dec 2023 • Remote (USA)

- Administered physical VMware ESXi hypervisors and virtual machine lifecycles across 20+ virtual servers for medical robotics engineering.
- Automated host provisioning, local user authentication, and system configurations using Ansible, **cutting server setup times from 3 hours to 15 minutes**.
- Integrated Arctic Wolf Agent for continuous 24/7 threat monitoring and vulnerability remediation.
- Authored Software Validation Protocols (SVP) and Verification Reports (SVR) satisfying FDA 21 CFR Part 11 regulatory compliance.

DevOps & Azure Engineer • [Code Informatics](#)

Feb 2021 - May 2022 • Remote

- Administered Azure tenant resources, user permissions, and deployment pipelines.
- Standardized containerized application environments and established centralized ELK Stack observability.

 EDUCATION & ACADEMIC RESEARCH

BS in Software Engineering

2017 - 2021

COMSATS Institute of Information Technology, Islamabad (2017 - 2021)

- Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
