 +92 317 694 7473

 Lahore, Pakistan

Results-driven DevOps Engineer with 4+ years of hands-on experience designing, automating, and operating enterprise cloud infrastructure on **Google Cloud Platform (GCP)** and multi-cloud environments. Specialized in **Kubernetes container orchestration**, **Infrastructure as Code (Terraform)**, automated **GitLab CI/CD & GitHub Actions pipelines**, **Docker containerization**, and full-stack observability with **Prometheus, Grafana, and GCP Cloud Monitoring**. Proven track record reducing pipeline runtimes from 18 to 7 minutes, cutting cluster deployment times from 4 hours to under 20 minutes, and maintaining 99.95% service availability under strict SLA-driven operations.

🔧 CORE COMPETENCIES & TECHNICAL SKILLS

 **GOOGLE CLOUD PLATFORM (GCP)**

 GCP GKE

Compute Engine (VMs)

GCP Cloud Storage

GCP VPC / Cloud NAT

Cloud IAM & Security

 **KUBERNETES & CONTAINERS**

Kubernetes (GKE / Multi-Node)

 Docker / Compose

 Helm Charts

 K9s CLI

Containerd

PROFESSIONAL EXPERIENCE

DevOps & GCP Engineer • [Vizzn Inc](#)

Aug 2023 – Feb 2025 • Remote (Canada)

- Managed Google Cloud Platform (GCP) infrastructure, GKE workloads, Compute Engine instances, VPC networking, and firewall rules for 5+ production microservices.
- Designed and optimized 8+ **GitLab CI/CD** and GitHub Actions pipelines, **reducing average pipeline execution durations from 18 to 7 minutes**.
- Modernized legacy server applications to containerized microservices on GCP, **improving system performance by 50%** and eliminating recurring downtime.
- Administered GCP Cloud Monitoring and Logging; executed zero-downtime distributed database upgrades and cluster migrations within scheduled maintenance windows.
- Executed automated compliance and infrastructure test suites for SOC 2 readiness.

Senior DevOps & Cloud Engineer • [IBHC.ai \(Inception AI\)](#)

Sep 2025 – Present • Abu Dhabi, UAE (Remote / Hybrid)

- Lead DevOps automation, container delivery, and multi-cloud infrastructure for high-scale enterprise platforms (**DGE-Mawaheb**, **Takafo**, **Muqabla**, and **RestHero**).
- Engineered multi-stage CI/CD pipelines with automated Docker builds, test validation gates, and zero-downtime release strategies, shipping production updates in under 10 minutes.
- Designed secure high-availability cloud architecture with isolated VPCs/VNets, Private Endpoints, Kubernetes workloads, Redis, and Key Vault integration.
- Unified full-stack observability with Prometheus, Grafana, and Log Analytics, **reducing production MTTR by 60%** while maintaining a strict 99.9% uptime SLA.

On-Premise & Cloud Infrastructure Engineer • [Technonies](#)

Mar 2022 – Oct 2024 • Remote

- **Kubernetes & GitOps Automation:** Automated multi-node Kubernetes cluster provisioning on Hetzner Cloud using **Terraform** and ArgoCD GitOps, **reducing cluster setup times from 4 hours to under 20 minutes**.
- **Containerized Database Operations:** Deployed and managed Kubernetes operators including **CloudNativePG**; architected zero-downtime HA PostgreSQL (Patroni) and MariaDB Galera clusters sustaining **99.95% database availability**.
- **IaC & System Hardening:** Authored modular **Ansible playbooks** automating OS hardening, container runtime setups, and Prometheus/Grafana monitoring rollouts across 15+ nodes.

Senior DevOps Engineer • [Aslase](#)

Jul 2025 – Present • Hybrid

- Manage Docker Compose containerized applications and microservices across 8+ commercial client platforms.
- Automated CI/CD release cycles and reverse proxy configurations with SSL/TLS automation, **reducing deployment cycle times by 40%**.
- Resolved production incidents and maintained 99.9% application uptime SLAs.

DevOps & Azure Engineer • [Code Informatics](#)

Feb 2021 – May 2022 • Remote

- Designed end-to-end CI/CD delivery pipelines using **GitLab CI** and Jenkins, automating build, test, and containerized deployment stages.
- Dockerized 5+ applications and deployed ELK Stack for centralized log aggregation.

BS in Software Engineering

2017 - 2021

COMSATS Institute of Information Technology, Islamabad

- **Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
