

ANAS KHAN

Senior CI/CD DevOps Engineer • Kubernetes, OpenShift & GitOps Specialist

 anas.devops@hotmail.com

 +92 317 694 7473

 Utrecht, Netherlands (Hybrid Ready)

Senior CI/CD & Platform DevOps Engineer with 5+ years of experience designing, automating, and scaling enterprise-grade Kubernetes, OpenShift, and multi-cloud delivery ecosystems. Deep expertise in GitOps synchronization using **ArgoCD** and **Flux**, authoring multi-stage CI/CD pipelines across **GitLab CI/CD**, **Azure DevOps**, and **Jenkins**, automating infrastructure with **Ansible** and **Terraform**, and engineering high-availability container runtimes. Proven background reducing cluster provisioning times from 4 hours to under 20 minutes and sustaining 99.95% workload availability with full-stack Prometheus and Grafana observability.

CORE COMPETENCIES & TECHNICAL SKILLS

KUBERNETES, OPENSIFT & CONTAINERS

Kubernetes (AKS / Multi-Node)

Red Hat OpenShift

Docker / Compose

Helm Charts

K9s / Containerd

GITOPS & CI/CD PIPELINES

ArgoCD GitOps

Flux CD

GitLab CI/CD

Azure DevOps

Jenkins

IAC & AUTOMATION

Ansible Roles/Playbooks

Terraform

Bash Scripting

Python

Git Flow

DATABASE OPERATORS & STORAGE

CloudNativePG Operator

PostgreSQL (Patroni)

MariaDB Galera

Redis

OBSERVABILITY, SRE & TELEMETRY

Prometheus

Grafana

Alertmanager

ELK Stack

Azure Monitor

MULTI-CLOUD & NETWORKING

Microsoft Azure

AWS

GCP

Ingress (Nginx/Traefik)

Network Policies

PROFESSIONAL EXPERIENCE

Senior DevOps & Azure Cloud Engineer • IBHC.ai (Inception AI)

Sep 2025 - Present • Remote / Hybrid

- Architect and operate enterprise CI/CD and container delivery pipelines for high-profile government and commercial platforms (**DGE-Mawaheb**, **Takafo**, **Muqabla**).
- Engineered multi-stage **Azure DevOps** and **GitHub Actions** CI/CD workflows with automated Docker container builds, environment validation gates, and zero-downtime rollback controls, shipping releases in under 10 minutes.
- Designed High-Level Architecture (HLD) with secure network isolation, Kubernetes services, Private Endpoints, Redis caching, and Azure Key Vault integration.
- Unified full-stack observability with Prometheus, Grafana, and Log Analytics, **reducing production MTTR by 60%**.

Senior DevOps Engineer • Aslase

Jul 2025 – Present • Hybrid

- Lead DevOps automation, Kubernetes container orchestration, and continuous delivery for 8+ commercial platforms.
- Automated CI/CD delivery workflows for microservices using Docker and multi-stage pipelines, **reducing release cycle times by 40%**.
- Managed containerized MLOps and API workloads for high-throughput AI platforms, maintaining a strict **99.9% uptime SLA**.
- Led zero-downtime cloud migrations from legacy infrastructure within two weeks.

On-Premise & Cloud Infrastructure Engineer • Technonies

Mar 2022 – Oct 2024 • Remote

- **Kubernetes & GitOps:** Automated Kubernetes cluster provisioning on Hetzner Cloud using **ArgoCD GitOps**, **reducing deployment times from 4 hours to under 20 minutes**.
- **Cloud-Native Database Operators:** Deployed and managed Kubernetes operators including **CloudNativePG** and MariaDB operator; architected zero-downtime Patroni PostgreSQL and Galera MariaDB clusters sustaining **99.95% database availability**.
- **Infrastructure as Code:** Authored modular **Ansible playbooks** automating multi-node Kubernetes cluster bootstrapping, OS hardening, and automated Prometheus/Grafana monitoring rollouts across 15+ nodes.
- Configured Ingress controllers, TLS cert-manager, network policies, and persistent volume storage across production clusters.

DevOps & GCP Engineer • Vizzn Inc

Aug 2023 – Feb 2025 • Remote (Canada)

- Modernized legacy monolithic architectures to containerized microservices on modern Ubuntu and GCP infrastructure, **improving system throughput by 50%**.
- Optimized 8+ CI/CD pipelines, **cutting pipeline execution runtimes from 18 to 7 minutes**; automated integration test suites and compliance controls.
- Administered GCP monitoring and distributed database upgrades with zero downtime.

Infrastructure & VMware DevOps Engineer • THINK Surgical

Feb 2023 – Dec 2023 • Remote (USA)

- Administered VMware ESXi physical hypervisor infrastructure and containerized engineering environments across 20+ virtual nodes.
- Automated host provisioning with Ansible, **reducing deployment setup times from 3 hours to 15 minutes**.
- Managed continuous build integrations on TeamCity with zero pipeline disruption.

DevOps & Azure Engineer • Code Informatics

Feb 2021 – May 2022 • Remote

- Designed end-to-end CI/CD delivery pipelines using **Jenkins** and **GitLab**, automating build, containerization, and deployment stages.
- Dockerized 5+ enterprise applications and established centralized ELK Stack observability.

EDUCATION & ACADEMIC RESEARCH

BS in Software Engineering

2017 – 2021

COMSATS Institute of Information Technology, Islamabad (2017 – 2021)

- **Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
