

ANAS KHAN

Senior DevSecOps & AI/ML Platform Engineer • Microsoft Azure & Kubernetes Specialist

 anas.devops@hotmail.com

 +92 317 694 7473

 Lahore, Pakistan (Open to Relocation to Abu Dhabi, UAE)

Senior DevSecOps & Cloud Platform Engineer with 5+ years of experience designing, securing, and operating enterprise cloud infrastructure, container platforms, and AI/MLOps runtimes across Microsoft Azure and AWS. Proven track record leading DevSecOps and GPU/ML infrastructure for prominent Abu Dhabi platforms including **Takafo** (Cognit & Mubadala partnership), **AslasChat**, and **DGE-Mawaheb** (UAE Government initiative). Deep expertise in **Azure DevOps**, **GitHub Actions**, **Jenkins**, **Terraform**, **Kubernetes (AKS)**, **Python/Bash automation**, **MLflow/Kubeflow/Azure ML** workflows, and shift-left security (SOC 2 / AzureProof).

CORE COMPETENCIES & TECHNICAL SKILLS

AI/ML PLATFORMS & DATA WORKFLOWS

Azure ML

Amazon SageMaker

MLflow

Kubeflow

JupyterHub

GPU VM Inference

DEVSECOPS & SHIFT-LEFT SECURITY

Shift-Left Security

SonarQube

Trivy / Snyk

SOC 2 (AzureProof)

Entra ID (PIM / RBAC)

AWS WAF

CI/CD & RELEASE AUTOMATION

Azure DevOps

GitHub Actions

Jenkins

Git Flow

INFRASTRUCTURE AS CODE & SCRIPTING

Terraform

Ansible

Python

Bash

PowerShell

CONTAINERS & KUBERNETES

Kubernetes (AKS)

Docker / Compose

Helm

K9s CLI

OBSERVABILITY & INCIDENT RESPONSE

Azure Monitor

Log Analytics

Prometheus

Grafana

ELK Stack

PROFESSIONAL EXPERIENCE

Senior DevOps & Azure Cloud Engineer • IBHC.ai (Inception AI)

Sep 2025 - Present • Abu Dhabi, UAE (Remote / Hybrid)

- Lead cloud architecture, DevSecOps delivery, and MLOps platform operations for **DGE-Mawaheb (UAE Government)**, **Takafo (Cognit & Mubadala partnership)**, **Muqabla**, and **RestHero** across Azure and AWS.
- Designed DGE-Mawaheb's secure High-Level Design (HLD) and network topology with isolated Dev, UAT, Production, and DR environments utilizing Azure App Services, **GPU VMs for AI model inference**, PostgreSQL, Redis, Azure Key Vault, ACR, VNETs, and Private Endpoints.
- Built automated **Azure DevOps** and **GitHub Actions** CI/CD pipelines with integrated security scanning, environment gates, and rollback controls, reducing release cycles to under 10 minutes.
- Maintained a strict **99.9% uptime SLA** for sovereign AI workloads and model inference pipelines; embedded **AzureProof** automated security testing into daily workflows.
- Centralized full-stack observability via Azure Monitor, Log Analytics, and Application Insights, **cutting MTTR by 60%**.

Senior DevOps & Azure Engineer • Aslase

Jul 2025 - Present • Hybrid

- Manage secure Azure cloud infrastructure, CI/CD automation, and MLOps platforms for 8+ commercial clients, including high-traffic AI services **aslaschat.ai** and **qudra-tech.ai**.
- Deployed and operated containerized AI inference services, API microservices, and Docker Compose workloads on Azure VMs with automated GitHub Actions and Azure DevOps pipelines, **shortening release cycles by 40%**.
- Provisioned and managed scalable cloud resources with Terraform and Ansible; automated SSL/TLS certificates, reverse proxies, and centralized logging.
- Led zero-downtime cloud migrations from legacy hosting environments within two weeks.

On-Premise & Cloud Infrastructure Engineer • Technonies

Mar 2022 - Oct 2024 • Remote

- Automated Kubernetes cluster provisioning on Hetzner Cloud using ArgoCD GitOps, **reducing deployment time from 4 hours to under 20 minutes**.
- Engineered zero-downtime HA PostgreSQL (Patroni + pgpool) and MariaDB Galera clusters, sustaining **99.95% database availability**.
- Developed modular **Ansible playbooks** automating multi-node Kubernetes cluster bootstrapping, OS hardening, and automated Prometheus/Grafana monitoring rollouts across 15+ nodes.
- Configured Ingress routing, TLS cert-manager, network policies, and persistent storage volumes across production clusters.

DevOps & GCP Engineer • Vizzn Inc

Aug 2023 - Feb 2025 • Remote (Canada)

- Modernized legacy monolithic application workloads into containerized microservices on modern Ubuntu and GCP infrastructure, **improving system throughput by 50%**.
- Administered GCP Cloud Monitoring and Logging across 5+ microservices; executed Dgraph database migration and cluster upgrades with zero downtime.
- Optimized 8+ GitHub Actions CI/CD workflows, **reducing average pipeline duration from 18 to 7 minutes**; automated DRATA compliance testing.

Infrastructure & VMware DevOps Engineer • THINK Surgical

Feb 2023 - Dec 2023 • Remote (USA)

- Deployed and operated a scalable multi-user **JupyterHub platform** on Ubuntu infrastructure for data science and AI/ML robotics R&D.
- Automated system provisioning and user environments via Ansible, **reducing server setup times from 3 hours to 15 minutes**.
- Managed VMware ESXi hypervisors and virtual machine lifecycles across 20+ virtual machines; authored FDA 21 CFR Part 11 validation protocols (SVP/SVR).

DevOps & Azure Engineer • Code Informatics

Feb 2021 - May 2022 • Remote

- Built automated Jenkins CI/CD pipelines, Dockerized 5+ enterprise applications, and deployed ELK Stack for centralized log monitoring.
- Led end-to-end Azure cloud infrastructure rollout, **cutting deployment duration from 2 days to under 1 hour**.

EDUCATION & ACADEMIC RESEARCH

BS in Software Engineering

2017 - 2021

COMSATS Institute of Information Technology, Islamabad (2017 - 2021)

- Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
