 Lahore, Pakistan

Senior Network & Hybrid Cloud Infrastructure Engineer with 5+ years of hands-on experience designing, implementing, securing, and operating enterprise network infrastructures and cloud connectivity across Microsoft Azure, Cisco environments, and hybrid data centers. Specialized in **Azure Hub-and-Spoke network topologies, network segmentation (East-West traffic inspection), Fortinet FortiGate & Next-Gen Firewall administration, Site-to-Site IPsec VPNs, Cisco routing and switching (VLANs, BGP/OSPF), and telephony (VoIP/Asterisk)**. Proven background designing secure network architectures and automated compliance for UAE Government and enterprise platforms.

CORE COMPETENCIES & TECHNICAL SKILLS

 **AZURE NETWORKING & HUB-SPOKE**

Azure Hub-and-Spoke

VNets & Subnetting

NSGs / Route Tables (UDR)

Private Endpoints

Azure Application Gateway

Azure Firewall / Network Watcher

 **ROUTING, SWITCHING & CISCO**

Cisco Routers / Switches

VLAN Segmentation

BGP / OSPF Protocols

TCP/IP, DHCP, DNS

Trunking & Spanning Tree (STP)

FIREWALLS & NETWORK SECURITY

Fortinet FortiGate

Palo Alto Networks

Check Point Firewalls

Site-to-Site IPsec VPN

East-West Traffic Control

Network Hardening

SECURITY OPERATIONS & COMPLIANCE

Vulnerability Assessments

Pen Testing Support

Security Event Logs

Zero-Trust Framework

AzureProof SOC 2 / ISO

DATA CENTER, SYSTEMS & TELEPHONY

Structured Cabling & DC

Asterisk VoIP Telephony

 VMware ESXi
Networking

 Linux & Windows
Server

OPERATIONS & TROUBLESHOOTING

Level 2 / 3 Support

Wireshark Packet Analysis

 Terraform
IaC

 Ansible

MTTR Reduction (-60%)

PROFESSIONAL EXPERIENCE

Senior DevOps & Azure Cloud Infrastructure Engineer • [IBHC.ai \(Inception AI\)](#)

Sep 2025 - Present • Abu Dhabi / Dubai, UAE (Remote / Hybrid)

- Designed and operate the High-Level Network Architecture (HLD) and **Azure Hub-and-Spoke network topology** for **DGE-Mawaheb (UAE Government)**, **Takafo**, **Muqabla**, and **RestHero**.
- Implemented strict micro-segmentation and controlled east-west traffic flows using **Azure VNets**, **NSGs**, **Private Endpoints**, Route Tables (UDRs), and Azure Key Vault integration across isolated Dev, UAT, Production, and DR tiers.
- Configured secure Site-to-Site IPsec VPN tunnels, reverse proxies, and Azure Application Gateways with SSL/TLS termination and WAF inspection.
- Automated security compliance validation with **AzureProof** (continuous live configuration scanning against control baselines), cutting audit preparation from days to hours.
- Unified centralized logging and telemetry using Azure Monitor, Log Analytics, and Application Insights, **reducing incident MTTR by 60%**.

Senior DevOps & Infrastructure Engineer • [Aslase](#)

Jul 2025 – Present • Hybrid

- Administer network security, Nginx reverse proxies, SSL/TLS certificate lifecycles, and subnet routing across 8+ commercial platforms.
- Enforce network access policies, firewall rules, and container network routing on Azure VMs, maintaining a strict **99.9% uptime SLA**.
- Conducted regular network vulnerability reviews and performance optimizations, **cutting release cycle times by 40%**.
- Completed zero-downtime infrastructure migrations from legacy hosting environments within two weeks.

On-Premise & Cloud Infrastructure Engineer • [Technonies](#)

Mar 2022 – Oct 2024 • Remote / Data Center Operations

- **Enterprise Routing & Bare-Metal Network Infrastructure:** Managed multi-node network topologies, VLAN segmentation, and firewall routing across 15+ bare-metal servers on Hetzner Cloud.
- **Enterprise Telephony (VoIP) & Directory Services:** Deployed and administered a 50+ agent Vicidial call center cluster (Asterisk VoIP) with strict QoS traffic shaping, alongside FreeIPA centralized directory services (LDAP/Kerberos/PKI).
- **Network Hardening & Level 2/3 Support:** Authored modular **Ansible playbooks** automating OS hardening, network baseline security, and Prometheus/Grafana network telemetry rollouts.

Infrastructure & VMware Systems Engineer • [THINK Surgical](#)

Feb 2023 – Dec 2023 • Remote (USA)

- Administered virtual network switches (vSwitches), VLANs, and virtual machine connectivity across 20+ servers on physical **VMware ESXi** hypervisors.
- Deployed Arctic Wolf Agent for continuous 24/7 network threat monitoring, intrusion detection, and incident response.
- Authored FDA 21 CFR Part 11 compliant system verification protocols (SVP/SVR) verifying network compliance and security controls.

Network & Systems Support Engineer • [Code Informatics](#)

Feb 2021 – May 2022 • Remote

- Configured Cisco switches, office routers, DHCP scopes, DNS zones, and VPN connections for internal staff.
- Deployed centralized ELK Stack (Elasticsearch, Logstash, Kibana) for network log analysis and server performance monitoring.

EDUCATION & ACADEMIC RESEARCH

BS in Software Engineering

2017 - 2021

COMSATS Institute of Information Technology, Islamabad

- **Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
