 +92 317 694 7473

 Lahore, Pakistan (Remote & Global)

Senior DevOps & Azure Cloud Engineer with 5+ years of experience architecting, securing, and operating enterprise-grade cloud environments across Azure, AWS, and GCP. Proven track record leading hybrid-cloud migrations, building automated Azure DevOps and GitHub Actions CI/CD pipelines, managing Kubernetes workloads, and enforcing zero-trust security across multi-client government and commercial ecosystems. Deep specialization in Microsoft Entra ID (Azure AD), Azure Landing Zones, SRE observability, and compliance automation.

CORE COMPETENCIES & TECHNICAL SKILLS

 **MICROSOFT AZURE ARCHITECTURE**

Azure Landing Zones

VNets / Private Endpoints

App Gateway / Front Door

AKS / GPU VMs

ACR / Key Vault

Defender / Sentinel

 **IDENTITY, GOVERNANCE & ZERO-TRUST**

Microsoft Entra ID

Conditional Access

PIM (Privileged Access)

RBAC & Managed IDs

SOC 2 (AzureProof)

AWS WAF / Arctic Wolf

 **CI/CD, GITOPS & IAC**

 Azure DevOps

 GitHub Actions

 ArgoCD

 Terraform

 Ansible

ARM / Bicep

 **OBSERVABILITY, SRE & TELEMETRY**

Azure Monitor

Log Analytics

Application Insights

 Prometheus

 Grafana

ELK Stack

PROFESSIONAL EXPERIENCE

Senior DevOps & Azure Cloud Engineer • [IBHC.ai \(Inception AI\)](#)

Sep 2025 – Present • Abu Dhabi, UAE (Remote)

- Lead cloud architecture, DevOps, and SRE delivery for **DGE-Mawaheb (UAE Government)**, **Muqabla**, **Takafo**, and **RestHero** across Azure and AWS.
- Designed DGE-Mawaheb's High-Level Design (HLD), network topology, and secure data flows with isolated Dev, UAT, Production, and DR environments using App Services, GPU VMs, PostgreSQL, Redis, Key Vault, ACR, VNets, Private Endpoints, and WAF.
- Built Azure DevOps and GitHub Actions CI/CD pipelines with Docker deployments, approval gates, health checks, and rollback controls, enabling demo and production releases in under 10 minutes.
- Implemented Entra ID, RBAC, Managed Identities, private networking, and centralized observability through Azure Monitor, Log Analytics, and Application Insights, **reducing MTTR by 60%**.
- Automated RestHero's AWS delivery using Amplify, Elastic Beanstalk, CodePipeline, and AWS WAF, **reducing manual effort by 70%**; maintained **99.9% uptime SLA** for Takafo sovereign AI platform.
- Enforced SOC 2-aligned compliance through **AzureProof**, reducing audit preparation from days to hours.

Senior DevOps & Azure Engineer • [Aslase](#)

Jul 2025 – Present • Hybrid

- Manage secure Azure infrastructure, monitoring, backups, deployments, and production operations for 8+ client platforms, including **ASMS (Skyworth USA)**, **Black Door Limo**, **Humentra.ai**, and HR performance portals.
- Build GitHub Actions and Azure DevOps CI/CD pipelines for Docker Compose workloads on Azure VMs, with approval gates, health checks, rollback controls, and automated notifications.
- Operate Nginx reverse proxies, SSL certificates, DNS, application configurations, centralized logging, and incident resolution across development, staging, and production tiers.
- **Reduced release cycles by 40%** through automation and maintained **99.9% availability** for AI/ML Ops and commercial workloads.
- Completed zero-downtime Azure migrations from legacy cPanel infrastructure within two weeks.

DevOps & GCP Engineer • [Vizzn Inc](#)

Aug 2023 – Feb 2025 • Remote (Canada)

- Led migration of critical Borger application from legacy server to modern Ubuntu platform, **improving system performance by 50%** and eliminating recurring downtime.
- Administered GCP monitoring and logging across 5+ microservices; led Dgraph database major version upgrade with zero data loss within a 30-minute maintenance window.
- Optimized 8+ GitHub Actions workflows, **reducing average pipeline duration from 18 to 7 minutes**; executed full DRATA compliance testing suite for SOC 2 readiness.

On-Premise & Cloud Infrastructure Engineer • [Technonies](#)

Mar 2022 – Oct 2024 • Remote

- Automated Kubernetes cluster deployments on Hetzner Cloud using ArgoCD GitOps, **dropping cluster provisioning time from 4 hours to under 20 minutes**.
- Engineered zero-downtime MariaDB Galera Cluster and HA PostgreSQL Cluster using Patroni and pgpool, maintaining **99.95% production database availability**.
- Authored Ansible playbooks automating full Kubernetes installation and monitoring stack deployment across 15+ nodes; used Proxmox locally for environment testing and validation before Hetzner rollout.
- Deployed and managed 50+ agent Vicidial call center cluster (Asterisk VOIP), FreeIPA identity management, Frappe ERPNext, and Postfix/Dovecot mail infrastructure on bare metal.

Infrastructure & VMware DevOps Engineer • THINK Surgical

Feb 2023 – Dec 2023 • Remote (USA)

- Managed VMware ESXi hypervisor environment on physical servers; handled VM lifecycle, resource allocation, and snapshot management across 20+ virtual machines for medical robotics R&D.
- Deployed multi-user JupyterHub platform for R&D data analysis; automated Ubuntu host provisioning via Ansible, **cutting server setup times from 3 hours to 15 minutes.**
- Implemented Arctic Wolf Agent for 24/7 threat monitoring; executed full TeamCity server migration with 100% pipeline and build configuration preservation.
- Authored Software Validation Protocols (SVP) and Verification Reports (SVR) adhering to strict FDA 21 CFR Part 11 compliance requirements.

DevOps & Azure Engineer • Code Informatics

Feb 2021 – May 2022 • Remote

- Built company's entire CI/CD culture from scratch; designed Jenkins pipelines, Dockerized 5+ applications, and deployed ELK Stack for centralized log monitoring.
- Led end-to-end Azure cloud setup for new product launch, **cutting deployment time from 2 days to under 1 hour.**

EDUCATION & ACADEMIC RESEARCH

BS in Software Engineering

2017 – 2021

COMSATS Institute of Information Technology, Islamabad (2017 – 2021)

- **Final Year Project:** Dual-Axis Automated Solar Tracking Optimization System.
- **Academic Research:** Empirical statistical research study conducted for BZU University.
